Subject: Re: Progress of Parties Report - Annex 9

Thanks so much Nancy. Yes, the next step was to get this out to A9 Sub-committee members for review. We agreed to a two week review. With the holidays fast approaching, I believe a short extension is in order. Perhaps January 8th?

I'm going to hold onto this until COB Monday, just in case Ash/Jamie want to weigh in on the segment flagged by Nancy. If I hear nothing, then I'll send it out and ask for comments by the end of the first week in January (the 8th).

Patrick and Doug, please let me know if you concur or have questions with this revised plan.

Happy Holidays to All!

Heather

Hi All,

At long last, here is the revised PRP chapter for Annex 9 with additional Canadian input.

I don't like the last section as some of the SOGL information is outdated. Ash and Jamie should weigh in here as to what their expectations for this section are.

I believe we wanted to send to the Annex 9 sub-comm next for review. Is that right?

Nancy
